

ANCAP Safety Rating

LDV T60 (August 2017- onwards)

LDV T60

This ANCAP safety rating applies to:

Make / Model	LDV T60
Year Range	August 2017 - onwards
Variant(s)*	4WD dual cab variants
Vehicle Type	Utility

The tested model of LDV T60 was introduced in Australia in September 2017 and New Zealand in August 2017. This ANCAP safety rating applies to all 4WD dual cab variants.

Dual frontal, side chest and side head-protecting (curtain) airbags are standard. Blind spot monitoring (BSM) is standard and a lane support system (LSS) is available on some variants. Autonomous emergency braking (AEB) is not available. A full list of safety features and technologies can be viewed within the *Safety Features & Technologies* table on page 2 of this report.

Occupant Protection.

Frontal Offset Test

Each body region is scored out of 4 points

Head / neck:	4.00 points
Chest:	3.08 points
Upper legs:	4.00 points
Lower legs:	3.38 points

The passenger compartment held its shape well in the frontal offset test. Pedal and steering wheel displacements were well controlled. Driver and passenger contact with the airbags was stable. Protection of the driver's chest and lower legs was rated as acceptable. All doors remained closed during the crash. After the crash all doors could be opened with normal effort.

Side Impact Test

Each body region is scored out of 4 points

Head:	4.00 points
Chest:	4.00 points
Abdomen:	4.00 points
Pelvis:	4.00 points

The side impact test normally used by ANCAP simulates a small car striking the driver's door of the test vehicle. Experience shows that large vehicles like the T60 can be expected to perform well in this test. ANCAP has adopted a policy of awarding these types of vehicles a default score of 16 points (out of 16).

Pole Test

Scored out of 2 points

Score:	2.00 points
--------	-------------

The vehicle has side curtain airbags so was eligible for a side pole test. The vehicle scored the maximum 2 points for head protection in this test.

Whiplash Protection Test

Whiplash protection is assessed to the RCAR Protocol

Geometric test:	Good
Dynamic test:	Good
Overall whiplash rating:	Good

Pedestrian Protection.

Pedestrian Test

Scored out of 36 points

Adult & child head impacts: 15.87 points
Upper leg impacts: 4.98 points
Lower leg impacts: 5.80 points

This vehicle scored 26.64 out of 36 points (Acceptable). The bonnet provided predominantly acceptable protection to the head of a struck pedestrian with some poor results recorded at the base of the windscreen, on the windscreen pillars and along the leading edge of the bonnet. Results were mostly good or acceptable for the bumper and grille test areas. (v8.3)

Child and adult head impact

Adult leg impact (upper and full legforms)

Score Deductions.

* **Model Variants:** ANCAP safety ratings do not automatically extend to variants that have different body styles, engine configurations, driven wheels or occupant restraint systems (e.g. fewer airbags). In these cases, ANCAP considers technical evidence submitted by manufacturers before deciding on extending a rating to additional variants of a model. For further information about the application of ANCAP safety ratings to model variants, see the ANCAP Variant Policy.

^ **Rating Year:** The Rating Year denotes the year requirements against which a vehicle has been assessed. The Rating Year is determined by ANCAP and may be based on the year in which a new vehicle model is first launched into the Australian and/or New Zealand markets; the year in which the vehicle was tested (if tested by Euro NCAP); or, for vehicles which hold an existing ANCAP safety rating, the year in which the rating was updated (or earlier applicable year).
